Introduction

This document highlights the latest **Catalogue Title Releases, Features & Improvements** to the 'Off the Shelf' Learning Libraries. For this release, we have 2 new modules for release into our Health Library, along with continued updates to the Financial Services sector.

New Releases

New additions to our Catalogues

Fundamentals of Diabetes [Health]

Diabetes is a lifelong condition that requires daily monitoring and regular treatment. We designed this module for those working in the healthcare industry or those who need to be aware of the condition, whether that's in hospitality, retail, or even social care. Taking an holistic approach, the module will look at what diabetes is and how those living with the condition treat and manage it on a daily basis. The module is also CPD Certified and should take approximately 35 minutes to complete along with the assessment at the end.

Scabies [Health]

This informational module on Scabies was designed to aid those in the Health or Care sector. Using case studies and video content, this module aims to make the learner familiar with what causes scabies, how you can spot it and how best to deal with it. It takes approximately 15 minutes to complete, with knowledge checks throughout. This module is also CPD certified.

Module Refreshes

We've updated some modules to suit your needs and to comply with the most up to date framework available

CASS: An Overview [Financial Services]

This module has gone through a refresh to update sections with new content such as 'CASS Requirements' while removing outdated content such as CF10a Function. We've also updated terminology and revisited the assessment to give learners the opportunity to test their knowledge with additional assessment questions.

Improvements & Fixes

We've made some changes to improve courses for our customers. We constantly evaluate terminology, legal requirements and a range of important conditions that improve overall learning experience. The most notable ones below:

Financial Services Updates

We've improved and updated the below modules by updating terminology and legislative changes and ensuring all graphical elements are correctly presented. We've redefined the assessment sections of our Financial Services modules to allow users to test their knowledge with additional assessment questions

- **CASS 1 and 1A**
- **CASS 3**

Wrap it Up

Recap

To recap on this product release; we've released **2 NEW** Modules, **Refreshed 1** module and **updated or improved 2** existing modules impacting the learner experience of our Financial Services Library.

Future developments

At Learning Pool, we continuously work to improve our products and ensure our customers are getting the best service we can offer. To check out our plans for Future Developments for our 'Off the shelf' Library content, view our [Learning Libraries Roadmap](#).
