

# OnScreen Guidance

A digital adoption platform that makes it simple to train your people to use the software your business runs on.

## Accelerate software adoption and mastery.

Every minute your employees spend learning how to use software is a minute that isn't spent adding value for your business. OnScreen Guidance allows you to quickly create and embed step-by-step guides directly into software like SAP, Oracle, ServiceNow, Salesforce, Workday, and any enterprise or custom application. These guides produce:

**Higher software adoption**

**Increased productivity**

**Decreased time to proficiency**

Enterprise software is complex – and critical to business success. By providing your people with actionable guidance at the point of need, OnScreen Guidance makes your software training smarter.

## Why OnScreen Guidance?

OnScreen Guidance is built from the ground up to be simple: simple to use, simple to support, and simple to buy. With OnScreen Guidance, you can hit the ground running.

### Compatible with all apps

OnScreen Guidance can be used with any web-based application and is specially optimized for SAP.

### Intuitive to use

Any trainer can publish a guide in 27 minutes or less — on the first try.

### Easy to roll out

OnScreen Guidance is 100% web-based with nothing to install.

Excellent training tool - I found OnScreen Guidance a very useful tool to train our users on the job. It's simple to use. Trainers can create step by step guides in minutes. All guides are available in a single click. No hassle of storing training documents and spending time finding them.

**Enterprise Solution Specialist**

# Who needs OnScreen Guidance?

Any company can use OnScreen Guidance to accelerate the adoption and mastery of digital tools. However, OnScreen Guidance is particularly helpful for enterprises that are:

Needing efficient onboarding.

Implementing new software.

Supporting inexperienced users.

Managing regulatory and governance compliance.

Stuck with outdated training methods.

Using traditional, hard-to-maintain documentation.
